

# GROUNDBREAKING NAMING OPPORTUNITIES

Help students connect with one another and around the world while maintaining noise control. State-of-the-art glass cubicles allow for multi-media study and interactive multi-student research with global connectivity. For more privacy, students will have access to self-study enclosed research areas. This office-like environment allows students to have deep focus on their studies.

5 Glass Cubicle Multi-Student Media Centers	\$15,000 each
5 Self Study Enclosed/Research Areas	\$15,000 each

A critical part of any library is organization. Shelving of research stacks will let students easily navigate the materials available to them. These shelves can be designated for subjects like art, music, theater, culture, sports and more.

20 Research Stacks/Shelves	\$10,000 each
